Mr. Adwell-

Thank you for your comments on smart metering. Your comments will be placed into the record of the case for the PSC's consideration. For your reference, should you wish to locate case documents on the PSC Web site, the case number in this matter is 2006-00045. Please include the case number in any future communications on this matter.

Thank you for your interest.

PSC,

So under the smart metering plan when Mom & Dad get home from work and fix a meal, wash clothes, and get their children ready for the next day their utility bill will be higher. Unless they do it at 4:00 am? Just another sneaky plot by the utility companies to stick it to the consumer. Just like the extra charge they stick to for reading your meter and you get your bill and see where they didn't read your meter. They just sent you an estimated bill. No to smart metering!

Norman L. Adwell
